FULL SPECTRUM BLEND HEMP PRODUCTS

OUR JOURNEY

We have perfected our formulations by creating a hybrid between Full Spectrum Hemp + Terpenes resulting in harmonious medleys of full flavor with natural notes of terpenes from the whole plant. Nature has provided and we have conquered. We present to you Hemplitude. "Hemp with attitude." Exceeding expectations daily. Elevate your mind and body.

FULL SPECTRUM HEMP + TERPENES

Our Full Spectrum Hemp not only offers the benefits of CBD but also the added benefits of CBG, CBN, CBC, CBDa, THC, THCa, and THCV. The THC levels are always .3% or less. These are the benefits of whole plant extraction. Whole plant paired with terpenes gives the wonderful aromatic fragrance and flavor. Terpenes also have been known to bestow health benefits.

THE ENTOURAGE EFFECT

Both Full Spectrum Hemp and Terpenes have great benefits but when combined enhance each other therapeutic benefits. Thus resulting in the "Entourage Effect" which means when combined have a greater effect.

A blue-tinted landscape featuring a range of mountains in the background and a forested valley in the foreground. A white-bordered text box is centered in the middle of the image.
